

Specifikace ikon na čelní plochu panelů řady TILE

- Při požadavku na opatření ovladače ikonami nebo textem uveďte na objednávce u každého ovladače kód(y) ikony a písmeno(a) pozice.
- Je možné i zadat text v libovolném jazyku. Při požadavku na text ho uveďte opět s písmenem pozice.
- Ikony, jejichž označení končí na „s“ jsou provedeny silnějšími čarami, jsou tedy výraznější. Pozn. Výraznost motivu lze též ovlivnit nastavitelnou intenzitou podsvícení.

Pozor: pro **plastové** a **kovové** provedení ovladačů jsou odlišné sady ikon.

Spécifications des icônes pour la face avant des panneaux de la série TILE

- Lorsque vous demandez des icônes ou du texte sur le panel, veuillez spécifier le(s) code(s) de l'icône et la(les) lettre(s) de position pour chaque contrôleur de la commande.
- Il est également possible de spécifier un texte dans n'importe quelle langue. Lorsque vous demandez du texte, veuillez le spécifier à nouveau avec la lettre de position.
- Les icônes se terminant par un "s" sont réalisées avec des lignes plus épaisses, ce qui les rend plus distinctives. Remarque : la prépondérance du motif peut également être influencée par l'intensité réglable du rétroéclairage.

Attention : il existe des jeux d'icônes différents pour les versions **plastique** et **métallique** des contrôleurs.

Icon-Spezifikationen für die Vorderseite der TILE Serie

- Wenn Sie Symbole oder Text auf dem Steuergerät wünschen, geben Sie bitte den/die Symbolcode(s) und den/die Positionsbuchstaben für jedes Steuergerät in der Bestellung an.
- Es ist auch möglich, den Text in einer beliebigen Sprache anzugeben. Wenn Sie einen Text wünschen, geben Sie ihn bitte zusammen mit dem Positionsbuchstaben an.
- Die Symbole, die auf "s" enden, sind mit dickeren Linien versehen, so dass sie besser zu erkennen sind. Hinweis: Die Hervorhebung des Motivs kann auch durch die einstellbare Intensität der Hintergrundbeleuchtung beeinflusst werden.

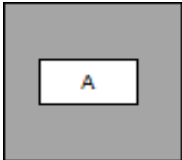

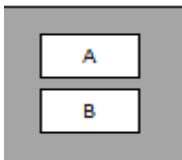

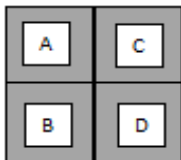

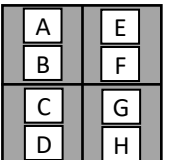

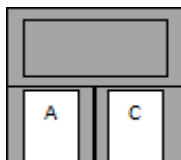

Hinweis: Für die **Kunststoff**- und **Metallversionen** der Steuergeräte gibt es unterschiedliche Icon Sets.

Icon specifications for the front face of the TILE series panels

- When requesting icons or text on the control panel, please specify the icon code(s) and position letter(s) for each controller on the order.
- It is also possible to specify text in any language. When requesting text, please specify it again with the position letter.
- The icons that end in "s" are made with thicker lines, so they are more distinctive. Note: The prominence of the motif can also be influenced by adjustable backlight intensity.

Caution: there are different icon sets for the **plastic** and **metal** versions of the controllers.
